PARTS NAME AND FUNCTION

POWER SWITCH

Push the Power switch and built-in motor will activate.
 Low speed → High speed
 → Pause will repeat upon every push on the power switch.

Rotation will stop automatically after 5 minutes to prevent the cat from over exercising.

This product is programmed with artificial life feature based on Chaos Theory (patented). The alive-like combination of irregular forward, reverse, pause, slow & high speed rotation will arouse cat's curiosity.

BATTERY COMPARTMENT

Open the cover on the back and install 3 AA batteries (sold separately).

ROD INSERT SLOT

Insert here either 1 of the 2 rods enclosed.

NON-SLIP FOOTPAD

Silicon pad on the back will reduce the crash when cat bumps on the product.

It is safe to use on floorings.

Hair ball with soft rod makes rotation further complex.

Feather with hard rod rotates agile that is good to help cat without enough exercise.

SELECTABLE ~COLOR VARIATION

Item Code	Item Code	Item Code	Item Code
